CELTEC

CELTEC® GRAPHIC DISPLAY MATERIALS

Vycom's Celtec® family of graphic and display materials is designed with a unique combination of features that makes them ideal for digital and screen printing, signage, exhibits, POP, and more. Our materials are lead and heavy metal free, which allows them to optimize performance while being environmentally friendly.

CELTEC

CELTEC® EXPANDED PVC

Our rigid foamed PVC is digital or screen printable and ideal for various applications in the sign and graphic markets. Celtec® Expanded PVC comes in the widest range of thicknesses and in a full line of standard colors, with custom colors available upon request. Celtec® Expanded PVC's optimal density gives it smaller cell structure for edge finishing and superior screw and staple retention. The premium UV package enhances material performance. Our materials are lead and heavy metal free, which allows them to optimize performance while being environmentally friendly.
